RE: Project 51812, *Issues Related to the State of Disaster for the February 2021 Winter Weather Event*, Commission orders directing action by ERCOT

It was brought to my attention this morning that filings related to the February weather event were being placed in Project 51617. These filings need to be place in this Project 51812.

The Commission issued its first two orders related to the February weather event in Project 51617 because the Commission had not yet opened a separate control number for this matter. Project 51617 is a holding place for items that are considered at an open meeting that do not have a control number assigned. After the Commission had entered its first two orders, it opened this project. By separate memorandum, the Commission's first two orders were copied into this project.

Filings related to the February weather event should not have been filed in Project 51617, they should have been filed in this Project 51812. The following items were filed in Project 51617 but were not also filed in this project. These items should be moved to this Project 51812.

- Item 5, filed on February 22 by TEAM.
- Item 6, filed on February 22 by Foster Danowsky LLP
- Item 8, filed on February 22 by Coalition of Concerned Citizens
- Item 9, filed on February 24 by Vergigris Energy LLC
- Item 14, filed on March 1 by 174 Power Global Retail Texas, LLC

The following filings were filed in both Project 51617 and this project. They should only be located in this Project 51812.

- Item 7 P 51617, Item 9 P 51812, filed on February 22 by Pulse Power LLC
- Item 10 P 51617, Item P 51812, filed on February 25 by Freepoint Commodities LLC
- Item 11 P 51617, Item P 51812, filed on February 25 by Pattern Energy Group LP
- Item 12 P 51617, Item P 51812, filed on February 26 by Liberty Power
- Item 13 P 51617, Item P 51812, filed on March 1 by Bell Textron, Inc.

32

All future filings related to the February weather event with Project 51617 should be filed only in Project 51812.

Let me know if you have any questions.
